JAVASCRIPT

## PROJECTS

### Car Rental System

 01/2023 - 05/2023

The web-based car rental system employs HTML, CSS, and JavaScript on the frontend, with PHP on the backend. Its primary function is to offer users the ability to register, make efficient car bookings, view their booked vehicles, and submit reviews

### Online Shopping Cart

 10/2021 - 01/2022

Successfully created a comprehensive online shopping cart system in a collaborative group project. Leveraged HTML, CSS, and JavaScript to implement functionalities such as a wishlist and dynamic cart system.

## TRAINING / COURSES

### Web Development

Pursued an 8-week online training course in full stack development which mainly aims to prepare for a role as an entry-level web developer.

## LANGUAGES

English

Hindi

## VOLUNTEERING

### Event Head

NSS

Volunteered in an event called Paper Drive, assisting in the collections of old clothes and other stuff so that the underprivileged could be helped. We also organized various events like Diwali celebration, Asha, and Sports Day at our college.

### Department Head

EDC

Organized an E-fest.

Conducted an 'Idea Box' event where students were required to bring a waste box and use it to create something creative and useful for the future.
